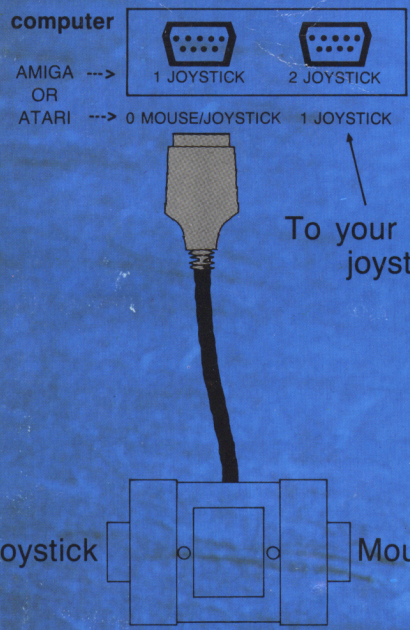
AUTO MOUSE / JOYSTICK SWITCH FOR AMIGA / ATARI



AUTO Mouse/Joystick Switch

AUTO MOUSE/JOYSTICK SWITCH FOR AMIGA/ATARI USER'S INSTRUCTIONS

1. INTRODUCTION

Thank you for purchasing the AUTO MOUSE/JOYSTICK SWITCH. It allows you to instantly select either your mouse or joystick by simply a touch. You won't need to tumble under or behind your computer to swap your mouse and joystick cables ever again.

2. INSTALLATION & OPERATION

1) Turn your computer off.
2) Plug the cable of AUTO MOUSE/JOYSTICK SWITCH to the 1 JOYSTICK PORT of AMIGA or 0 MOUSE/JOYSTICK PORT of ATARI.
3) Plug your mouse cable to the right connector (close to the green LED) and the joystick cable to the left connector (close to the red LED) on AUTO MOUSE/JOYSTICK SWITCH.
4) Turn your computer on.
5) The green LED will light on first showing that it is now in mouse mode.
6) You can select your joystick by pressing the FIRE button of your joystick. The red LED will light showing it is now in joystick mode.
7) You can press the left button of mouse to return to mouse mode.

3. CAUTIONS

1) Please don't plug the cable when the computer is on.
2) Please contact your dealer if you are not sure about the installation procedures. The failures caused by unproper installation is beyond manufacturer's warranty.
